

New Part Numbers for Valves V222, V292, V321 (DN65...100) Due to New Profile Bonnet Connection

New part numbers have been created for the V222, V292 and V321 valves in three sizes: DN65, DN80 and DN100.

The part numbers were created due to a change in the profile of the valve neck (bonnet) where the actuator is mounted.

It was found that the original bonnet profile may cause a misalignment issue in the M800, M1500 and MG900-SR actuators manufactured after January 2016. Therefore, the valve neck has been updated to always ensure a good actuator fitment. It is very rare that the misalignment will cause any field issue.

However, considering the potential misalignment aspect, a small clip was created that fits between the valve bonnet and actuator as a service item, this clip ensures the current M800, M1500 and MG900-SR actuators are mounted perfectly on valves with the old profile.

The select countries that have purchased these valves will be contacted to provide this clip to install during the regular maintenance program. The installation is simple, and details are in the installation document F-28169. The updated part numbers allow for easy identification and exclusion of valves that may require this service clip.

The updated Part Numbers (Commercial References) are detailed below:

Valve	Valve Size	Old Part No.	New Part No.	Description
V321	DN65	7312153010	7312153020	V321 Valve PN16, DN65, Kvs63
V321	DN80	7312157010	7312157020	V321 Valve PN16, DN80, Kvs100
V321	DN100	7312161010	7312161020	V321 Valve PN16, DN100, Kvs160
V222	DN65	7212254000	7212254010	V222 Valve, PN16, DN65, Kvs63
V222	DN80	7212258000	7212258010	V222 Valve, PN16, DN80, Kvs85
V222	DN100	7212262000	7212262010	V222 Valve, PN16, DN100, kvs130
V292	DN65	7219254000	7219254010	V292 Valve, PN25, DN65, Kvs63
V292	DN80	7219258000	7219258010	V292 Valve, PN25, DN80, Kvs85
V292	DN100	7219262000	7219262010	V292 Valve, PN25, DN100, Kvs130
V222/V292 Stuffing Box	DN65...100	100108200	100108201	Stuffing Box V2x2 65-100 Spare

Technical documentation

Updated specification sheets for the V222, V292 and V321 valves can be found on [The Exchange](#) extranet in the [Technical Documentation](#) section. Use the filters to narrow your search.

The most complete and most up-to-date technical documentation can also be found at the searchable [WebHelp](#) site
